Objective

To leverage my skills in MongoDB, Express.js, React.js, and Node.js (MERN) to design and develop scalable, efficient, and user-friendly web applications, while continuously enhancing my technical expertise and contributing to organizational growth.

Skills

- ➢ Problem Solving
- ➢ Teamwork
- ➢ Python
- ➢ Java
- ➢ MERN Stack development

Languages

English
Tamil

Education

- ➢ Secondary School Certificate (Class 10) – *81.2%* OLS Matric Hr. Sec. School, T kallikulam|State Board | *Year of Completion: 2022*
- ➢ Senior Secondary (Class 11) – *82%* St. Ann's Matric Hr. Sec. School, Panagudi | State Board | *Year of Completion: 2023*
- ➢ Higher Secondary Certificate (Class 12) – *95.16%* St. Ann's Matric Hr. Sec. School, Panagudi | State Board | *Year of Completion: 2024*
- ➢ Bachelor of Engineering (B.E.) in Computer Science Government College of Engineering, Tirunelveli | *Expected Graduation: 2028*

Certification

- ➢ Web Development Training – Adaovi (*Jan 4 – Feb 28, 2025*) *Completed hands-on training covering HTML, CSS, JavaScript with practical projects.*
- ➢ Full Stack (MERN) Development – *Novitech (Jun 2 – Jul 5, 2025)* Completed training in MongoDB, Express.js, React.js, and Node.js, focusing on full-stack application development and deployment.

Projects

- • Voice-Activated To-Do List (MERN) Developed a full-stack to-do app with voice command functionality using React SpeechRecognition API. Implemented CRUD operations with MongoDB, RESTful APIs in Express.js/Node.js, and a responsive React UI.

- • Number Guessing Game (JavaScript) Built an interactive web-based game where users guess a number within a given range. Implemented logic for tracking attempts, providing hints, and displaying results dynamically.
